

## RIDING SKILL

### MOVING OFF SAFELY AND PRECAUTIONS TO TAKE

106. The following procedure shows you how to move off safely.

#### MIRROR ADJUSTMENT

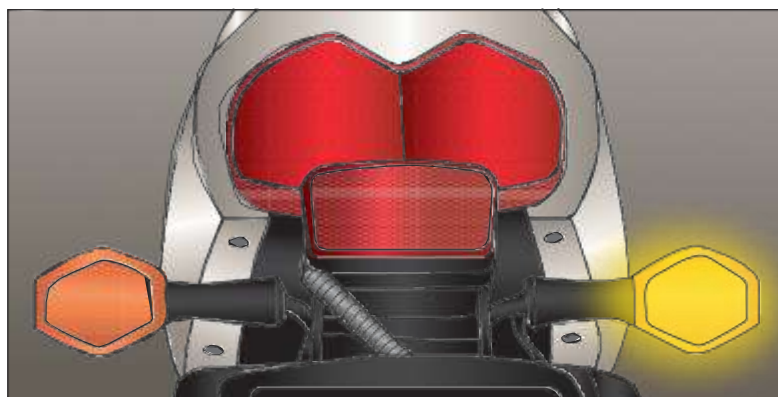

107. While seated on the motorcycle, adjust the angle of the mirror so that you can easily see the back while seated on the motorcycle.

#### STARTING THE ENGINE

108. When the ignition switch is turned to the 'on' position, all the indicator lamps light up. Check that the gear is not engaged by visually observing the green lighting of the neutral lamp displayed as Neutral "N".

Check that the red switch 'engine stop' is in the 'run' position. Start the engine by pressing the starter button.

#### SIGNAL RIGHT

109. When the engine starts, signal right to indicate your intention to move off from the kerbside.
