

CHANGING THE LEG POSITION

118. After the motorcycle has come to a complete stop, change your leg positions by releasing your right foot from the rear brake pedal, then lower your right foot to the ground and put your left foot on the foot peg. Check safety before putting the foot down.

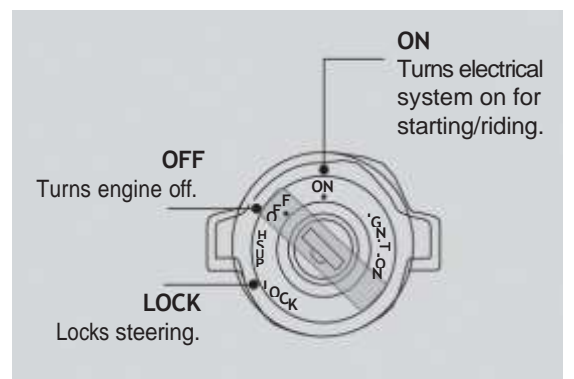

SET TO NEUTRAL 'N' GEAR

119. Step on the gearshift pedal lightly and put the gear in neutral position. Tap the gear lever lightly or you may select gear 1 instead.

SWITCH OFF THE ENGINE

120. Switch off the engine before dismounting.

CHECK SAFETY

121. Apply front and rear brakes and check if there are any danger in the surrounding area. Be sure to check your back for any on-coming traffic or road users.

DISMOUNT THE MOTORCYCLE

122. With the front brake applied, dismount to the left and set the main stand or side stand.
