

DRIVING THROUGH A ROUNDABOUT

132 When approaching a roundabout:

- (a) Reduce your speed;
- (b) Decide as early as possible which exit you need to take;
- (c) Get into the correct lane;
- (d) Beware of the speed and positions of the traffic around you.

133 When entering a roundabout:

- (a) Give way to traffic on your right in the roundabout (unless road markings indicate otherwise);
- (b) Look out for traffic already in the roundabout;
- (c) Do not enter a roundabout if you can see that your exit is blocked.

134 Once in a roundabout:

- (a) Look out for and give way to vehicles crossing in front of you;
- (b) Be cautious when you are passing an exit or intending to leave by the next exit;
- (c) Signal your intention early when changing lanes;
- (d) Signal left when you are about to leave the roundabout.

135 The general rule is that:

- (a) Traffic from lane A as in the illustration goes to 'A';
- (b) Traffic from lane B goes to 'B';
- (c) Traffic from lane C goes to 'C'.

REMEMBER - Traffic coming from your right takes priority over you.
