

- (c) Confirm that it is safe to move out. Drive forward slowly and turn the steering wheel further to the right;

- (d) As the front bumper clears the front kerb, return the steering wheel to the straight ahead position, keeping a gap of 1 metre from the kerb as you drive out of the lot. Do not make too wide a turn when moving out.

156 Parallel parking along the road side between other parked vehicles is done in the same manner as described above. Imagine the position of the back bumper of the vehicle (X) as that of the corner of the front kerb and the position of the front bumper of vehicle (Y) as a guide.
