

OBSTACLES

224 When approaching road works, look out for workers, equipment and materials lying on the road. If the obstruction is on your side of the road, give way to oncoming vehicles from the opposite direction before passing.

225 Slow down to the speed at which you can stop at a safe distance of one vehicle length from the obstacles should the need arises to give way to the oncoming vehicles.

226 When passing fixed obstacles, keep a gap of at least 0.5 metres from them.

227 When passing moving vehicles, keep a gap of at least 1.5 metres from them.
