

152. In this scenario, although the traffic behind is far but the speed is fast. To lane change safely, accelerate to merge with the flow of traffic.

153. You should not change lanes or cross the centre continuous white line unnecessarily.

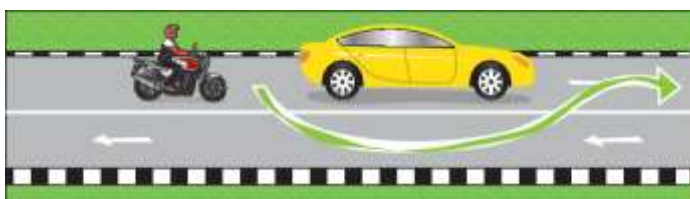

154. Always keep to the left when riding along two-way street or dual-carriageway. In the situation where your path of travel is obstructed by road works, parked vehicles, etc. you may overtake safely and cross the centre continuous white line or move to the lane on your right. In doing so, take precautionary measures to ensure that your intended path is safe and clear before you move to the right.

(a) Road Works Ahead.

(b) Parked Vehicle Ahead.

155. Where there are two lanes, the left lane is for normal driving and the right lane is for overtaking and turning right.
